

2019-2020

Patron Report

SYC is an effective provider of services that foster wellbeing, independence and opportunity for all Australians.

This year SYC has truly proven itself as a mature and sustainable organisation, providing stability and support to Australians facing challenges that none of us have seen before. It is a considerable credit to the employees and Board of SYC, for their commitment to achieving the organisation's Vision no matter the climate.

SYC's broad range of services and partnerships provides a unique capacity to integrate and adapt services to better help people on a pathway to independence.

I recognise the employees and Board of SYC for another year of hard work, dedication and results. I also acknowledge the contributions of supporters, donors and stakeholders who improve the reach and impact of the services SYC provides.

I am honoured to be a part of the great work this organisation does and look forward to seeing SYC continue supporting more Australians in even more ways.
