Supported by
Government of South Australia
SA Housing Authority

Share your experience

OF HOUSING STRESS,
HOMELESSNESS OR
RENTAL STRESS

Have your say

Between 2020 and 2030 there are changes being made to housing and homelessness services in South Australia.

These changes must be driven by the feedback and opinions of people with lived experience.

Have you experienced homelessness, housing stress or rental issues?

Let's talk about it

- How can services improve?
- How can they be more inclusive?
- What changes would you like to see?
- What works? What doesn't?

We will engage with you to:

- Listen to your advice and capture your experience and opinions
- Present ideas back to you for your feedback and consultation
- Work together and collaborate with you
- Advocate for change

How to get involved

We run a range of activities including focus groups, surveys and discussion forums.

Vist our website to express your interest in being involved:

We're listening

The Lived Experience and Engagement Service values people's experience with homelessness and housing services in South Australia across many different providers and organisations. The stories, opinions, feedback and experience you share with us will inform the future of housing and homelessness services across SA.
