

# Foundation Skills Bridging Units

FSK20119 - Certificate II in Skills for Work  
and Vocational Pathways

RTO 40053

## Course Overview

We work in collaboration with Registered Training Organisations to support students with their identified bridging units.

The duration of the course varies for each student, depending on number of units and support required.

## Upfront Assessment of Need (UAN)

All individuals who are seeking access to a subsidised training place, regardless of prior educational attainment, are required to complete an Upfront Assessment of Need. If literacy and/or numeracy support needs are identified, students will need to undertake bridging units in addition to their qualification. SYC deliver bridging units and can support students with the required training.

## Services

We provide the following services:

- Mentoring students and RTO's through the UAN Process
- Delivery of Foundation Skills Bridging Units
- Learner Support Services to help student address other non-vocational barriers to study

## Conditions of Access to Subsidised Training

Compliance with undertaking identified bridging units is monitored by the Department and non-compliance may result in the withdrawal of subsidy for a training account.

## Cost

**Funded by the Government of South Australia.\***

## Delivery

**These units are delivered face to face in a small group setting at various SYC sites across metropolitan Adelaide. Online options are also available with Zoom support for students. Please speak to our friendly team about the best delivery mode for your learning needs.**

For more information please contact us on 08 8405 8500 or email [foundationskills@syc.net.au](mailto:foundationskills@syc.net.au)

SYC is a not-for-profit employment, training and youth services provider. We have worked for over 60 years to help Australians lead independent lives.
